

Easy & Healthy

Homemade Dog Treat Recipes Natural snacks your pup will love

Peanut Butter and Pumpkin Biscuits

- 2 1/2 cups whole wheat flour (use oat flour if your pup can't handle wheat)
- 1/2 cup plain canned pumpkin
- 1/2 cup unsalted peanut butter (no xylitol)
- 2 eggs

Mix until you've got a stiff dough. Roll out, cut with cookie cutters, and bake at 350°F (175°C) for about 30 minutes—flip them halfway for crispier biscuits. Keep in an airtight container. These are always a favorite and freeze well for extra batches.

Sweet Potato Chew

- 1 large sweet potato

Slice thin for extra crunch. Line a baking sheet and bake at 250°F (120°C) for about three hours, flipping halfway. These bake into chewy, vitamin rich snacks and are so simple. You can snack on them too—nothing in these is dog only!

Frozen Yogurt Mixed With Fruits

- 1 cup plain Greek yogurt
- 1/2 cup berries or diced apples

Mix fruit and yogurt, then spoon into silicone ice cube molds. Freeze until solid. On hot days, these are a great way to cool your dog off, and the probiotics work wonders for pups with itchy skin.
